**URGENT LEGAL MATTER
VIA OVERNIGHT DELIVERY**

Mr. Brad Owens
Director, Environmental Remediation
Lockheed Martin Corporation
Energy, Environment, Safety & Health
2950 North Hollywood Way, Suite 125
Burbank, California 91505

Re: Unilateral Administrative Order pursuant to CERCLA Section 106(a) for the
Lockheed West Seattle Superfund Site

Dear Mr. ^{Brad}Owens:

This purpose of this letter is to transmit the enclosed Unilateral Administrative Order (UAO) for the performance of the remedial design and remedial action at the Lockheed West Seattle Superfund Site in Seattle, King County, Washington. The U.S. Environmental Protection Agency has issued this UAO to the Lockheed Martin Corporation pursuant to Section 106 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. §9606.

Lockheed Martin may request a conference with EPA to discuss the UAO. Any such request must be made in writing, within 10 days of March 5, 2015, the date on which EPA signed the UAO. You will find such details in Section XXX of the enclosed UAO about where to send a request for a conference and which matters the EPA would be willing to discuss. The conference would occur in Seattle, Washington, at the EPA's offices. If necessary, a telephonic or video conference are also possibilities.

Please note that the UAO requires Lockheed Martin to reply to the EPA with either a notice that it intends to comply with the UAO, or an explanation of Lockheed Martin's "sufficient cause" defenses to the UAO. Lockheed Martin's reply is due on or before the Effective Date of the UAO and is required regardless of whether Lockheed requests a conference. Please refer to Section VII of the enclosed UAO for further explanation.

If Lockheed Martin has any technical questions about the work required by the UAO, please contact Piper Peterson, Remedial Project Manager, at 206-553-4951. Should you have any legal questions about the UAO or the process it describes, please contact Caroline Philson, Associate Regional Counsel, at 206-553-8575. Thank you for your immediate attention to this matter.

Sincerely,

Cami Grandinetti, Program Manager
Remedial Cleanup Program
